

Polkadot Legal Bounty

Receipt / Adjustment Note

1. EMA7 Pricing Error

During the issuance of the last batch of Child Bounties, a pricing error was identified for **CB 0 (Pebble Law LLC, Q3–Q4 2025 liquid payment)**.

The **DOT/USD EMA7 price** used in the payout calculation was **USD 2.02**, while the correct EMA7 at the time of issuance was **USD 1.86**.

As a result:

- DOT paid: **16,264 DOT**
- DOT that should have been paid: **17,636 DOT**
- Difference: **–1,372 DOT**

| | | | |
|--|--|--|--|
| Child Bounty 0  | |  | |
| USD Amount  | DOT/USD Price (EMA7)  | # | DOT Amount  |
| \$32,803 | \$2.02 | | 16264 |
| \$32,803 | \$1.86 | | 17636 |
| | | | -1372 |

The amount of **1,372 DOT** is therefore **outstanding and due to Pebble Law LLC** and will be reimbursed as Child Bounty 6

2. EMA7 Difference Recalculation and Market Adjustment

In addition to the EMA7 pricing error, the market experienced a further **~6% price drop** during the issuance window.

Given the timing of the correction and in the interest of fairness, this additional price movement has been taken into account and **included in the adjustment**.

Due to the **closure of the bounty**, it is no longer possible to issue future corrections related to differences between EMA7 reference prices and spot prices at the time of payout. This adjustment therefore represents the **final reconciliation** for EMA7-related pricing differences associated with this payment.

All details are recorded for transparency and audit purposes.
